

Inauguration of Entry Portal building, RMP, Mysuru:

The building is planned, designed and constructed by DCSEM, for BARC, Plant Site, RMP, Mysuru. The building area is approximately 600 sqm having requisite facilities for security specific requirements of Physical Protection System namely turnstile gates, door frame metal detectors, inspection platforms for truck checking by security, Control room and watch tower.

All external walls are clad with Nuvocotta premium clay tiles, granite fins while the internal finishes include granite & vitrified tile floorings, false ceilings in the entire building etc.

The building was inaugurated by Sh. A. K. Kalburgi, Project Director, RMP, Mysuru on 27-07-2020.
